

The new quality in epoxy coatings.

FORTIDE®

FORTIDE® Epoxy coatings for lifelong safety.

100 % safety. 100 % DEKOTEC.

FORTIDE® Epoxy coatings

Corrosion protection with outstanding strength and abrasion resistance – in every situation.

FORTIDE®-HT

For **very high temperatures** up to +150 °C (+302 °F)

FORTIDE®-ST

For **standard temperatures** up to +95 °C (+203 °F)

FORTIDE®-TL

For chemical-resistant **tank & pipe lining**

FORTIDE®-WS

For application on **wet surfaces**

The new **FORTIDE®** Epoxy coatings guarantee the 100% Made in Germany quality from industry leader DEKOTEC GmbH. They are suitable for the rehabilitation of pipelines, as a whole pipe coating or for welded joints and complex geometries. The products are characterised by an outstanding coating hardness and exceptional indentation strength. All **FORTIDE®** products are **free of VOC & isocyanates** and fully comply with **ISO 21809-3**. [dekotec.com](https://www.dekotec.com)
